MILK CARTON GARDEN PROJECT

MILK AWAY!!! We are getting close to setting up our Milk Carton Garden Project. We have decided to use the court yard for the project. The deadline for presenting the project is April 13, 2016. The gardening project is in the works and we are hoping to put it together by early next week. So look for a garden in the courtyard by the main office. Don't forget we are aiming for the \$5,000.00. Good Luck to the Green Team members.

RECYCLE BRIGADE PROJECT

DON'T FORGET TO CLEAN UP!!! We made it. We have sent in our first shipment of recycled drink pouches (GoGo Yogurt pouches). We have earned 2 points for every pouch that was sent in (368 points totally). We are also supposed to receive additional 2,000 points for sending in the product before their promotional deadline. We want everyone to continue to bring in whatever products they consume to the PTA office or to Ms. Lugo-Beckers office. Hopefully this will become a habit for every student so that they can work together to make a difference.

ENERGY CHALLENGE

CONTINUE TO SAVE ENERGY EVERYDAY!!! Energy challenge project is almost ending by this week. We did not get the total results of the amount of energy we saved. Con Edison calculates the month prior, so they should be currently working on March. Hopefully we will get the total results in May. It is unfortunate that we were not able to save enough energy to be one on the list of top schools but we did great job of saving energy even with all the construction work going on in the school ground. We want to thank everyone at PS198 and PS77 for helping us save energy to save our planet. Great Job everyone. See you next year.
